1.0 PREFACE

Mr. Speaker sir,

I am Pleased to present and table the reports on the petition by Hon. Hassan Abdi Dukicha, MP to the National Assembly regarding degazettement of legal notice No. 29 of 2013 that declared Wayu Forest in Tana River County pursuant to Standing Order 227.

1.1 Committee Mandate

The Departmental Committee on Environment and Natural Resources is established under the National Assembly Standing Order No. 216(1). The mandate and the functions of the Committee are encapsulated under Standing Order, No. 216(5). Pursuant to the National Assembly Standing Order, No. 227 the Committee is mandated to consider and report on any petition committed to it by the House.

The petition was submitted in line with Articles 37 and 119 of the Constitution and also in line with the provisions of the *Petition to Parliament (Procedure) Act* 2012 and the *National Assembly Standing Order 220*.

The petitioners prayed for the degazettement of Legal Notice No. 29 of 2013.

1.3 The Petition

On 12th November 2014, the Hon. Hassan Abdi Dukicha, MP on behalf of the residents of Galole Constituency, presented a petition pursuant to Standing Order 225 (2) regarding the degazetment of Legal Notice No. 29 of 2013 on the declaration of Wayu as a forest area.

The Committee held various sessions in Parliament and received submissions from the Cabinet Secretary for Environment and Natural Resources regarding the petition.

The Committee also undertook an inspection visit of Wayu to appraise itself with the matters on the ground. The Committee visited Galole Constituency between March 26th-29th 2015 and received evidence from the residents;

The following Members undertook the inspection visit;

1. The Hon. Dr. Reginalda Wanyonyi, M.P. - - **Leader of delegation**
2. The Hon. Samuel Mathenge Ndiritu, M.P.
3. The Hon. Jude Njomo, M.P.
4. The Hon. Hassan Abdi Dukicha, M.P.
5. The Hon. Aisha Katana Jumwa, M.P
6. The Hon. Khatib Mwashetani, M.P
7. The Hon. Charles Mong'are Geni, M.P
8. The Hon. Dr. Wilber Ottichillo, M.P.

1.4 Response to petitioners

In response to the prayers of the petitioner, the Committee recommends that:-

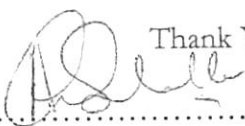

- 1) Noting that Settlement in the area preceded the gazettelement of the forest, and taking into account the needs of the people settled in the area vis a vi the need for conservation of the forest, the Kenya Forest Service in consultation with Land Commission should consider initiating a proposal to Parliament for approval to vary the boundaries of the forest in line with section 28 of the Forest Act, 2005.
- 2) The Kenya Forest Service needs to create awareness on the rights of people living around the forests and what resources they are allowed to access well as the need to conserve the forest.

1.5 Acknowledgement

The Committee wishes to acknowledge the time and considerable effort made by all parties who volunteered information before it. I also wish to express my gratitude to my colleagues for their thoughtful and engaged contributions to the matter. Further the Committee is indebted to the Office of the Speaker and the Clerk of the National Assembly for facilitating this activity. I also wish to recognize the commitment and dedication of the staff of the Committee that made the work of the Committee and the production of this Report possible.

Mr. Speaker Sir,

It is now my pleasant duty to table the report of the Departmental Committee on Environment and Natural Resources, in relation to the petition by Hon. Hassan Abdi Dukicha regarding the degazettelement of legal Notice No. 29 of 2013 pursuant to National Assembly Standing Order 227(2).

Thank You,

2.0 Background

Wayu forest comprises of WAYU I, WAYU II, and WAYU III and measures approximately 42,512.20 hectares. These parcels were gazetted as Wayu Forest Reserve vides Legal Notice No. 29 on 6th December, 2013. However before the gazette, the land was held as unalienated Government land under the former Government Land Act CAP 280.

As the time of boundary demarcation in 2010, nine isolated villages were found within the forest in Wayu block 1 and 2 whose population was estimated to be less than thirty thousand.

Following the boundary demarcation of the Wayu Forest a draft boundary plan delineating Wayu Forest Area and boundary schedule were prepared and presented to the Director of Survey for authentication and registration. No objection was raised by the Director of Survey thus leading to the registration and authentication of the Boundary Plan No. 175/416 and Boundary Schedule on 3rd December, 2010.

The decision to gazette the area as a forest reserve was arrived after the District Development Committee in 1996 operating under the infamous District focus made raft to gazette Wayu among other forest areas in the then larger Tana River District.

Pursuant to the EMCA 1999 and the Forest Act 2005, the matter was presented to the local District Environment Committee and further to the Forest Conservation Committee in 2010 for recommendations to the Kenya Forest Service Board of Management upon which the forest was eventually gazetted in 2013

The objective of gazette was to upscale and strengthen traditional conservational structures of the forests in Tana River against destruction and thus promote provision of critical forest goods and services in perpetuity to the locals.

2.1 The right to petition

The right of Kenyan citizens to petition public authorities and Parliament is a right conferred by the Constitution under Articles 37 and Article 119 of the Constitution and by the *petition to Parliament (Procedure) Act* 2012 as well as the *Standing Orders* of the National Assembly. The right to petition is an essential citizen participatory tool, as it provides an avenue for the Members of Parliament and citizens to interact on the issues that concern citizens, and also demonstrates that Parliament is prepared to directly intervene on the issues of concern in order to promote and protect the rights of the citizens.

2.2 Obligation in respect of the Environment and Natural Resources

The Constitution obligates on every person a duty to cooperate with State organs and other persons to protect and conserve the environment and ensure ecologically sustainable development and use of natural resources. The state has also the Constitutional responsibility to work to achieve and maintain a tree cover of at least 10% of the land area of Kenya among other responsibilities envisaged under Article 69 of the Constitution.

The Committee is committed to the protection and conservation of the environment and the natural resources. It is imperative that all activities that are detrimental to the environment, specifically anthropogenic activities are minimised or eliminated altogether. The Committee takes exceptional responsibility as mandated by the National Assembly Standing Orders to ensure that biodiversity and the eco-systems are preserved and protected for posterity. The residents of Galole Constituency who are pastoral communities and wholly rely on the survival of their livestock for their livelihoods are concerned that a large area of their ancestral lands has been declared a protected forest reserve by the government without their participation. The Departmental Committee on Environment and Natural Resources takes the Constitutional right of Kenyans to participate in decisions that affect them as enshrined in Articles 10, 118, 69, 174, 184, 196, 201 very seriously, and expects all public institutions to ensure they facilitate the public to enjoy the benefit of constitutional provisions. Specific concern to the residents of Galole as noted in their petition was lack of popular consultation processes when the Minister for Wildlife and Forestry issued legal Notice No. 29 of 2013 that hived 42,512 hectares of land to create the Wayu forest reserve.

2.3 The petition

The petitioner drew the attention of the House to the following:-

- 1. That, aware that legal Notice No. 29 of 2013 carved out more than 42,512 Hectares of land to create Wayu Forest Reserve;*
- 2. Noting, that Galole is largely a pastoralist region and that majority of the residents have no other income generating activities*
- 3. That, the gazettement of the forest areas was done without local community participation;*
- 4. That, the area declared as a forest areas encloses local villages including Wayu Duka, Wayu Boro, Daba, Titila, Ongola, Woldenna, BultoMulitu, Doke, KoneKaliti, Dida-Ade, Koticha, Motiboka and Haboye thereby infringing on movement of the residents;*
- 5. That, efforts to have the matter addressed have borne no fruits yet competition for the limited farming and grazing resources continue to heighten tension among families; and*
- 6. That, the matter in respect of which this petition is made is not pending before any court of law or tribunal.*

And the Petitioners prayed to the National Assembly to:-

1. *Intervene to have Wayu Forest Area degazetted and the land reverted to the Community*
2. *The Cabinet Secretary be barred from further gazetting any forest area in Galole Constituency without due participation of the public as required by the Constitution*

3.0 CONSIDERATION OF THE PETITION

The Committee analyzed the petition committed to it by the House and purposed to respond to the prayers of the petitioners. The Committee invited the petitioners, the Cabinet Secretary responsible for Environment, Water and Natural Resources, the Kenya Forest Service management. The Committee also met the Governor of Tana-River County and his officials. The Committee also undertook fact-finding visit to Tana- River County and held a public meeting in Wayu location which is at the centre of the issues raised in the petition. The Committee also had an opportunity to take aerial view of major part of the gazetted area. The sole objective of the Committee was to reply to the prayers of the petitioners.

3.1 Issues for determination from the prayers of the petitioners

To respond to the petitioner's prayers the Committee analysed the petition and set to determine whether: -

1. The National Assembly should intervene to have Wayu Forest Area degazetted and the land reverted to the Community ;
2. The Cabinet Secretary should be barred from further gazettelement of any Forest Area in Galole Constituency without due participation of the public as required by the Constitution.

In determining the above issues, the Committee held deliberative sessions, reviewed documents and undertook a fact-finding visit to the area at the centre of the prayers of the petitioner to determine the issues raised by the petitioner.

i. Deliberative sessions

In the exercise of its mandate the Committee held deliberative sessions to closely examine and hear presentations from petitioners, the Cabinet Secretary for Environment, Water and Natural Resources, the Kenya Forest Service management and the County Government. The Minutes of these sessions as well as the documents and evidences presented to the Committee are annexed to the Report

ii. Fact-finding visit

The Committee further organized a fact-finding visit to Galole Constituency. In this visit the Committee held meetings with the County Government of Tana-River to hear their views on the issues brought forward by the petitioners. The Committee also had an opportunity to visit the affected areas.

The Committee finally had a public hearing attended by the petitioners together with the community members living in the affected areas and received oral evidence from them.

iii. Documents review

The Committee reviewed documents and affidavits presented to it by the different parties. The documents tabled by the parties can be accessed at the National Assembly Library.

4.0 COMMITTEE PROCEEDINGS

This section contains the submissions by the petitioner and the Ministry of Environment, Water and Natural Resources made to the Committee during the sessions in Parliament and presentations by the County Government and the residents of Galole during a fact-finding visit to Galole Constituency.

4.1 Submissions by the Petitioner- Hon. Hassan Abdi Dukicha, MP

In addition to the tabling of the memorandum detailing the petition the Hon. Hassan Abdi Dukicha, MP made the following submissions to the Committee. He informed the Committee that:-

- (i) The legal notice of 2013 carved out more than 42,512.20 hectares of land to create Wayu Forest Reserve;
- (ii) Tana River is divided into Riverine and Hinterland areas. The Riverine people do farming while the hinterlands are pastoralists;
- (iii) The area gazetted as forest reserve is largely a pastoralist area;
- (iv) The gazettelement was done without local community participation;
- (v) The area declared as a forest area encloses local villages and thereby infringing on movement of residents;
- (vi) Wayu town has a population of thirty thousand people; there are permanent schools and hospitals that will be affected by this gazettelement;
- (vii) The community does not burn charcoal and has lived there for the last fifty years without affecting the forest;
- (viii) There is existence of monkeys but there are no white and red Columbus monkeys in the forest.
- (ix) The forest used to be transport route for animals bound for Mombasa & Malindi but now the Residents were being denied access to the forest;
- (x) The forest was used for dry season grazing land and this has been affected too; and

- (xi) The Committee should intervene to have Wayu Forest Areas degazetted and the land reverted back to the community.

4.2 Submissions by the Ministry of Environment, Water and Natural Resources and the Kenya Forest Service

The Cabinet Secretary, Ministry of Environment, Water and Natural Resources, Prof. Judi Wakhungu appeared before the Committee to respond to issues raised in the petition. She informed the Committee that:-

(a) Government policy on gazettement of forests and forest reserves

- (i) The Ministry is committed to increasing forest cover to the required minimum of 10% as stipulated in the Constitution of Kenya 2010. In order to achieve this goal, it is necessary that new forest areas are identified in consultation with stakeholders and communities for gazettement and for increased tree planting.
- (ii) While undertaking this process, priority will be accorded to the areas and forests that are water catchment areas, rich in biodiversity and contain rare or endangered species, significant in culture and for scientific development, and important in supporting industry and are sources of supporting livelihood of the communities.

(b) Government policy on degazettement of forests and forest reserves

- (iii) The degazettement of forests and forest reserves would only be considered in the public interest and this shall only be considered where the proposal has been subjected to the due process in accordance with section 28 of the Forest Act, 2005.

(c) Petition on the degazettement of Wayu Forest

- (iv) Wayu forest was unalienated government land designated for forest conservation. The process of gazettement was guided by the provisions of section 23 on creation of forest area under the Forest Act 2005. The process of degazettement took more than fifteen years. The gazetted area is approximately 42,512.2 hectares.
- (v) The Ministry gazetted the area because it was unalienated land which was faced with serious threats of degradation, and being ecologically sensitive and rich in biodiversity as well as being a water catchment area.
- (vi) There were no restrictions of the movements of animals, within the area and the surrounding community will be allowed to access permanent institutions on the gazetted area while awaiting a permanent solution.
- (vii) The government is in the process of gazetting Mchelelo and Sabaki forests in consultation with stakeholders.

- (viii) The Ministry will realign the boundaries of the forest so as to take into account the settlements that existed before gazettment. Already settled areas will be re-delineated for access by the community.

4.3 Submissions by the residents of the gazetted areas

During the fact finding visit the Committee visited the area and held an open meeting with the residents of the areas affected by the gazettment of the Wayu Forest reserve. The Committee was informed by the residents that:-

- (i) The area was their only source of water and pasture for their livestock
- (ii) The residents of the gazetted areas or their elected representatives were not consulted and involved in reaching a decision to gazette the Wayu Forest as a protected forest reserve by the authorities. The action was in breach of the laid down legal process
- (iii) The community lived in the area for decades without deforestation, charcoal burning or any other anthropogenic activity that was detrimental to the ecosystem of the area
- (iv) The communities residing in this area have conserved the environment and the forest through their traditional indigenous knowledge and understanding of the nexus between their survival and that of the forest. Their cultures and traditions have been in support of sustainable utilization and conservation of the forest and that they could do not destroy their only source of food, water and livelihood.
- (v) The Community co-exists harmoniously with the forest and has strong cultural attachment to it. Major community decisions on political social and conflict resolution are undertaken within the forest.
- (vi) The Kenya forest Service officers are restricting movement of people and livestock in certain areas on some specified times of the day.
- (vii) The monkeys that dwell in some parts of the forest are in no way endangered or threatened by the community. It is a taboo to kill wild animals in their cultural beliefs.
- (viii) The forest acts as a source of livelihood for the vulnerable members of the community especially women, the disabled and the elderly.

- (ix) The Community residing in the area has faced marginalization since independence and decision to gazette their land as a forest reserve was political decision that was made to marginalize them even further.

4.4 Submissions by the Governor of Tana River County

The Committee met the Tana River County Governor and his officials. He submitted to the Committee as follows:-

1. His government was against the gazettment of the area as a protected forest. This decision has the potential to disenfranchise the community livelihoods and lead to inter-communal conflict and hostilities
2. The decision to gazette the areas was informed by tribal politics of those who were in power then.
3. There was no popular public consultation with people of Galole for arriving at such a monumental decision that had affected them
4. Trees have cultural and extrinsic value to the residents of the area and have for decades lived harmoniously with their trees.
5. The gazettelement will have detrimental impact on the forest- there will be possibility of removing any responsibility of the community to conserve it as they had done for many years
6. Culturally the Orma people who are the residents of this area do not burn charcoal and eco-friendly people by their very lifestyle of pastoralism

5.0 COMMITTEE OBSERVATIONS

From the investigations conducted, evidence received and written submissions provided, the Committee made the following observations;-

1. The Orma Community of Galole who are predominantly pastoralists depend on the gazetted areas for their own livelihoods. The area is source of water and pasture for their livestock which is their main means of survival. The community has regarded the land as community land acquired through ancestral heritage.

2. The area declared as a forest area encloses about 13 local villages including with such amenities as schools, health centres, mosques, churches, boreholes and paved feeder roads.
3. The Government has a constitutional responsibility to achieve the minimum 10% tree cover in consultation with the various stakeholders and communities.
4. The Committee did not observe any detrimental anthropogenic activities taking place in the area from the aerial view or during the ground reconnaissance tour
5. The Committee observed that the area is an inter-communal conflict hotspot and palpable tension was building due to the gazettement of Wayu Forest with some members of one community accusing the other of being behind their predicament. The potential for full blown conflict could not be ruled out.
6. The Committee noted that the applicable statutory provision for the gazettement of forests is the Forests Act, 2005 which commenced on 1st February, 2007 via Legal Notice No.19 of 2007. Section 64 of the Forests Act, 2005 repealed the Forests Act (Cap. 385). Section 23 of the Act provides for creation of State forests. It is through the provision of this section that Minister for Forestry and Wildlife declared the Wayu Forest. It is important to note that the provisions of this Forest Act, 2005 have not yet been aligned to the provisions the Constitution of Kenya 2010.
7. The Committee observed that in issuing the Legal Notice No 29 of 2013 the Minister for Forestry and Wildlife should have taken into consideration the provision of the Constitution and taken into account the revolutionary reform and reclassification of land under the Constitution. The Minister should also have considered the undeniable role of the National Land Commission in the administration of public land.

6.0 COMMITTEE DETERMINATIONS AND RECOMMENDATIONS

From the Evidence adduced and the observations made, the Committee makes the following response on the prayers of the petitioners:-

Prayer # 2: The Cabinet Secretary be barred from further gazetting any forest area in Galole Constituency without due participation of the public as required by the Constitution

Committee response: In line with principle of separation of powers the Committee sees no possibility to support this particular prayer of the petitioner. The Committee encourages the

Cabinet Secretary to follow the due process of law in future actions in this particular issue with specific reference to citizens participation in the decision making process as enshrined in the Constitution.

The Committee recommends that:-

- 1) Noting that Settlement in the area preceded the gazettelement of the forest, and taking into account the needs of the people settled in the area vis a vis the need for conservation of the forest, the Kenya Forest Service in consultation with National Land Commission should consider initiating a proposal to Parliament for approval to vary the boundaries of the forest in line with section 28 of the Forest Act, 2005.
- 2) The Kenya Forest Service needs to create awareness on the rights of people living around the forests and what resources they are allowed to access as well as the need to conserve the forest.
- 3) The County Government of Tana River and the National Land Commission to continue monitoring, detecting and deter any activity that may have detrimental impact on the environment in this area.
- 4) The Ministry Lands, Housing and Urban development to expedite the processing of the Community Lands law to give effect to Article 63(5) of the Constitution and provide for the recognition, protection, management and administration of Community land and connected purposes.
- 5) The Ministry of Environment, Water and Natural Resources should in future ensure public participation and adherence to the provisions of the Constitution and the Forests Act, 2005 and other relevant laws in the process of declaring certain areas as forests.

MIN. NO. DC/ENR/121/2015 – CONFIRMATION OF MINUTES

Minutes of the previous meeting held on Tuesday 28th April, 2015 were confirmed as a true record of the proceedings having been proposed by Hon. Richard Moitalel Ole Kenta, M.P. and seconded by Hon. Kathuri Murungi, M.P.

MIN. NO. DC/ENR/122/2015 – CONSIDERATION OF THE PETITION REPORT ON THE DEGATTEMENT OF WAYU FOREST

The Committee considered the report and made the following recommendations:-

- 1) Noting that Settlement in the area preceded the gazettement of the forest, and taking into account the needs of the people settled in the area vis a vis the need for conservation of the forest, the Kenya Forest Service in consultation with the National Land Commission should initiate a proposal to Parliament for approval to vary the boundaries of the forest in line with section 28 of the Forest Act, 2005.
- 2) The Kenya Forest Service needs to create awareness on the rights of people living around the forests and what resources they are allowed to access as well as the need to conserve the forest.
- 3) The County Government of Tana River and the National Land Commission to continue monitoring, detecting and deter any activity that may have detrimental impact on the environment in this area.
- 4) The Ministry Lands, Housing and Urban development to expedite the processing of the Community Land law to give effect to Article 63(5) of the Constitution and provide for the recognition, protection, management and administration of Community land and connected purposes.
- 5) The Ministry of Environment, Water and Natural Resources should in future ensure public participation and adherence to the provisions of the Constitution and the Forests Act, 2005 and other relevant laws in the process of declaring certain areas as forests.

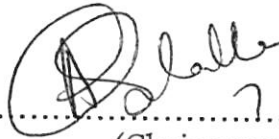

MIN.NO. DC/ENR/123/2015 -ANY OTHER BUSINESS

Minutes of the 17th sitting were confirmed as a true record of the proceedings having been proposed by Hon. James Opiyo Wandayi, M.P and seconded by Hon. Samuel Ndiritu Mathenge, M.P.

MIN. NO. DC/ENR/82/2015 - MEETING WITH CABINET SECRETARY, MINISTRY OF ENVIRONMENT, WATER & NATURAL RESOURCES

The Cabinet Secretary, Ministry of Water, Environment & Natural Resources Prof. Judy Wakhungu appeared before the Committee to respond to issues raised in two petitions before the Committee. She informed the Committee that:-

(a) Government policy on gazettement of forests and forest reserves

- (i) The Ministry is committed to increasing forest cover to the required minimum of 10% as stipulated in the Constitution of Kenya 2010, in order to achieve this goal, it is necessary that new forest areas are identified in consultation with stakeholders and communities for gazettement and for increased tree planting.
- (ii) While undertaking this process, priority will be accorded to the areas and forests that are water catchment areas, rich in biodiversity and contain rare or endangered species, significant in culture and for scientific development, and important in supporting industry and are sources of supporting livelihood of the communities.

(b) Government policy on degazettment of forests and forest reserves

- (iii) The degazettment of forests and forest reserves would only be considered in the public interest and this shall only be considered where the proposal has been subjected to the due process in accordance with section 28 of the Forest Act, 2005.

(c) Petition on Eviction of Residents from Gwassi Hills Forest Reserve

- (iv) The request for the gazettment of Gwassi Hills Forest came from the then South Nyanza County Council. The then Forest Department consulted with all stakeholders in the region to seek for consensus on the demarcation and eventual gazettment of the forest area.
- (v) The public was fully involved in the actual demarcation of the forest boundary and through their elected leaders at the then County Council, the public was informed and concurred with the forest boundary plan. No objection was raised during the stipulated period of 28 days in accordance with Forest Act Cap 385. The Gazettment of Gwassi forest followed the due process in full consultation with local communities and the South Nyanza County Council.
- (vi) The forest area was surveyed in the period between 2003 and 2004 with full participation of the communities. The forest was gazetted vide Legal Notice No. 106 of 2005 in order to enhance its protection and conservation. The size of the gazetted area is 4, 835.7 hectares and this is what the Ministry and the Gwassi Community Forest Association is currently managing on sustainable basis.
- (vii) There are no plans to expand the forest from the original 4,836.5 hectares unless the residents of Gwassi desire to have it expanded. Since the establishment of the forest boundary in 2004, the Ministry and the Gwassi Community Forest Association have effectively been protecting the forest and therefore there have been no squatters to be evicted.
- (viii) 2,000 hectares of land in Gwassi hills is not gazetted and consultations are ongoing to build consensus on the probable gazettment of the area.

(d) Petition on the Degazettment of Wayu Forest

- (ix) Wayu forest was unalienated government land designated for forest conservation. The process of gazettment was guided by the provisions of section 23 on creation of forest area under the Forest Act. The process of degazettment took more than fifteen years. The gazetted area is approximately 42,512.2 hectares.
- (x) The Ministry gazetted the area because it was unalienated land which was faced with serious threats of degradation, and being ecologically sensitive and rich in biodiversity as well as being a water catchment area.

- (xi) There are no restrictions of the movements of animals, within the area and the surrounding community will be allowed to access permanent institutions on the gazetted area while awaiting a permanent solution.
- (xii) The government is in the process of gazetting Mchelelo and Sabaki forests in consultation with stakeholders.
- (xiii) The Ministry will realign the boundaries of the forest so as to take into account the settlements that existed before gazettment. Already settled areas will be re-delineated for access by the community.

MIN.NO. DC/ENR/83/2015 - COMMITTEE OBSERVATIONS AND RESOLUTIONS

The Committee observed that the gazettment of various forest areas and reserves was done in a hurry in 2013 without taking into account public participation and already existing permanent settlements.

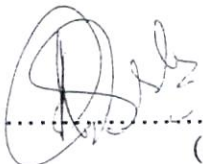

The Committee also observed that there is need for the forest department to establish clearly defined cutlines in addition to the installation of beacons along the forests boundaries.

From the submission and observations the committee made the following resolutions:

- (i) The Ministry should put clearly defined cut-lines along the forest for clear demarcation.
- (ii) The Ministry to review all gazettment of forests and reserves done in 2013;
- (iii) The Ministry should re-look at the Forest Act and in particular section 28 and in consultation with communities begin the process of degazetting sections of Wayu forest where human settlement existed prior to the gazettment.

MIN.NO. DC/ENR/84/2015 ADJOURNMENT

There being no other business the meeting was adjourned at quarter past twelve O'clock.

(Chairperson)

DATE.....19/MARCH/2015.....

STATEMENT BY THE CABINET SECRETARY PROF. JUDI W. WAKHUNGU,
MINISTRY OF ENVIRONMENT, WATER AND NATURAL RESOURCES
PRESENTED TO THE PARLIAMENT DEPARTMENTAL COMMITTEE ON
ENVIRONMENT AND NATURAL RESOURCES ON 17TH MARCH 2015

- (1) Government Policy on gazettelement and degazettelement of forests and forest reserves.
- (a) Government policy on gazettment of forests and forest reserves.

Hon Chair, In regard to the Government policy on gazettment of forests and forest reserves, my Ministry is committed to increasing forest cover to the required minimum of 10% as stipulated by the Constitution of Kenya 2010, in order to achieve this goal, it is necessary that new forest area are identified in consultation with stakeholders and communities for gazettelement and for increased tree planting.

While undertaking this process, priority will be accorded to the areas and forests that are:

- Important water catchment areas or sources of water springs;
- Rich in biodiversity and contain rare, threatened or endangered species;
- Significant in culture and for scientific developement;
- Important in supporting industry and are sources of supporting livelihood of the communities

- (b) Government policy on degazettment of forests and forest reserves.

Hon. Chair, In regard to degazettment of forests and forest reserves, this would only be considered in the public interest. Therefore, degazettelement of any forest shall only be considered where the proposal has been subjected to the due process in accordance with Section 28 of the Forest Act 2005.

Hon. Chair, no degazettment of forests or forest reserves shall be recommended unless:

- It has been approved by the Forest Conservation Committee as mandated under Forests Act, 2005 for the area in which the forest is situated;
- It is satisfied that such variation of boundary or cessation of forest area proposed by a notice does not adversely affect biodiversity and water catchment areas;
- The proposal has been subjected to an independent Environmental Impact Assessment; and
- Public consultations in accordance with the Third Schedule of the Forests Act, 2005 has been undertaken and completed in relation to the proposal.

Having followed the above request would then require to submit to Parliament for approval.

(2) Petitions

(i) Petition on Eviction of Residents from Gwasii Hills Forest Reserve

(a)Gazettement of Gwassii Hills Forest and size of gazetted area;

Hon. Chair, In respect to gazettment and the size of Gwassii Hill Forest reserve, I wish to state as follows:

- The request came from the then South Nyanza County Council Vide Letter Ref. No. CC/A & F/10/1/9/Vol.11/97 dates 30th September, 1983. This was supported by the Minutes of a Special Council Meeting held in the Council Chamber at Homa Bay on 28th January, 1983;
- The then Forest Department consulted with all the stakeholders in the region to seek for consensus on the demarcation and eventual gazettment of the forest area;
- The forest area was surveyed in the period between 2003 and 2004 with full participation of the communities;

- The forest was gazetted vide Legal Notice No. 106 of 2005 in order to enhance its protection and conservation.
- The size of the gazetted forest area is **4,835.7 hectares** and this what my Ministry and the local Community Forest Association is currently managing on sustainable basis.

(b) Eviction of residents from Gwassi Hills forests

Hon. Chair, Since the establishment of the forest boundary in 2004, my Ministry and the Gwassi Community Forest Association have effectively been protecting the forest and therefore there have no squatters to be evicted.

(c) Compensation if any for those affected during eviction

Hon. Chair, As I have stated there are no squatters who should have been evicted therefore, no compensation is anticipated to arise.

(d) The role of the public during the gazettelement of the forest

Hon. Chair, The role of the public in the process of gazetting Gwassi above forest was as follows:

- The local community and the elected leaders South Nyanza County Council wrote to my Ministry requesting for the Government intervention in order to enhance protection and management of the forest in rder to mitigate against deforestation and encroachment;
- The public was involved in the actual demarcation of the forest boundary;
- The public through the elected leaders at the then County Council were informed and then concurred with the forest boundary plan.
- No objection was raised during the stipultaed period of 28 days in accordance with Forest Act Cap 385.

Hon. Chair, The gazettement of Gwasii forest Reserve followed the due process in full consultation with local communities and the South Nyanza County Council.

(ii) Petition on the Degazettement of Wayu Forest

(a) Process of gazettement of Wayu forest and size of gazetted area

Hon. Chair, In regard to degazettement of Wayu forest, I wish to respond by clarifying to this honourable committee that Wayu Forest was an unalienated government land designated for forest conservation. The process of gazettement was therefore guided by the provisions of Section 23 on creation of forest area under Act.

The area gazetted is approximately **42,512.2ha**.

(b) Reasons for the gazettement of the area which is predominantly occupied by pastoralist communities.

Hon. Chair, My Ministry gazetted Wayu Forest Reserve because it was unalienated government land which was faced with serious threats of degradation, and being ecologically sensitive and rich in biodiversity as well a water catchment area.

(c) Why the surrounding Riverine areas such as Mchelelo, Sabaki Forest are not gazetted yet Wayu Forest which is in the hinterland was gazetted?

Hon. Chair, My Ministry remains committed to the government goal of gazetting more areas into forest reserves in order to enhance conservation and management for posterity. Therefore, we are in the process of gazetting more forest areas including Mchelelo and Sabaki forests among others in consultation with stakeholders.
