# QUESTION 6

PROVIDE BANK STATEMENTS OF THE  
210 CONSITUENCIES ROADS ACCOUNTS  
AND DISTRICT ROADS ACCOUNTS FOR  
FY 2009/10

# QUESTION 7

STATEMENT ON EQUITABLE VS. EQUAL  
DISTRIBUTION OF FUEL LEVY FUNDS

## STATEMENT ON EQUITABLE VS EQUAL DISTRIBUTION OF FUEL LEVY FUNDS

### 1.0 INTRODUCTION

The Kenya Roads Board (KRB) Act as amended by the Kenya Roads Act, 2007 provides broad guidelines for allocations of the projected collections of the Road Maintenance Levy Fund (RMLF) to road agencies within the Financial Year (FY). These are;

- a maximum of 2% provided for KRB Operations,
- 20% allocated equally to 210 Constituencies for road works in these constituencies,
- 12% to be allocated equitably to all districts,
- 40% to be allocated for road works on A, B and C roads.
- 15% to be allocated to roads within Cities and Municipalities.
- 1% to be allocated to roads within National Parks and Game reserves.
- The balance of 10% to be allocated to road agencies on presentation of needs, after consultations between KRB and the Minister.

Following the amendment by the Finance Bill of December 2009, the constituency and districts allocation were changed from 20% and 12% to 22% and 10% respectively.

### 2.0 EQUITABLE DISTRIBUTION OF FUEL LEVY

- 2.1 The 12% of the RMLF to be disbursed to districts is derived directly from the projected RMLF collections.
- 2.2 After identifying these ceilings, broadly, the 12% portion of the RMLF is allocated to:
- Roads Department - to complete on-going projects on D, E and SP Roads.
  - The balance, to be distributed equitably to all districts. Currently, due to the uncertainty of the number of districts, KRB has maintained the distribution to go to the 138 districts that were recognized prior to the elections of 2002.
- 2.3 It should be understood that town councils and county councils to be funded from 12% are found within a district. They form the economic centers of the rural communities and the district and contribute to poverty alleviation and wealth creation of the rural people. Funding the improvements of the infrastructure within these Local Authorities contributes to the socio-economic improvement of the rural communities.
- 2.4 Factors used in deriving ceilings for the for the 12% portion of RMLF to be equitably disbursed

## APPENDIX VII

The following factors are used to develop the weighted indices used in deriving the ceilings for roads in 138 districts.

- i) *District Area;*
- ii) *District Population;*
- iii) *District Road Length (kms);*
- iv) *Length of Paved Roads in District (kms);*
- v) *Terrain and Climate;*
- vi) *Economic Activities (contribution to the National Economy);*
- vii) *Traffic Volumes in Districts;*

2.5 An analysis of the Roads Department Annual Road Works Programme to be funded from the allocation of the 12% portion of the RMLF which is presumed to target on-going works is then carried out and districts receiving funding from this portion of the 12% are identified. Similarly, districts receiving Development Partner financing for Roads 2000 are also identified. These districts do not receive any more funding.

2.6 The balance of the remaining RMLF is then distributed equitably to the districts without any on-going projects or support from Development Partner financing for Roads 2000.

2.7 **Prioritization of Roads to be funded from the 10% (previously 12%) Portion of the RMLF**

Kenya Rural Roads Authority has been informed that they must clearly differentiate between the 12% portion of the RMLF to be equitably allocated to the districts and the 20% portion of the RMLF equally distributed to all the 210 constituencies.

2.8 **THE 12% PORTION EQUITABLY ALLOCATED TO THE DISTRICTS MUST NEVER BE EQUALLY SHARED AMONG CONSTITUENCIES.** This portion of the funding is to be directed towards maintaining one, two or three roads of major rural roads within the district that will improve the economic potential of the district, or towards one or two bridge that will increase communications within the districts.

3.0 **EQUAL DISTRIBUTION OF FUEL LEVY**

This is mainly applicable for the constituency allocation of Fuel Levy Funds. The allocation is based on the annual ceilings divided by the number of constituencies, such that each constituency gets the same amount of constituency fuel levy funds.
